Codetrotters Academy

It's my pleasure to offer my highest recommendation for Angel López.

I had the opportunity to meet Angel in a course I was imparting at Alternativa Educativa in Morovis, PR. He struck me as a very open minded individual, always willing to learn and very objective oriented. During the term of the course he always made himself available to helping and coaching his peers, presenting a very clear interest in the fact that everybody be on the same skill level and no one being sure no student had a doubt they weren't comfortable enough to discuss with me.

I payed close attention to the way he expressed himself during class, the topics he resonated the most with and the information he brought to the table. He demonstrated a thirst for knowledge, always asking me about certifications available for the IT field and popular areas of specialization.

Angel would make a very good asset in any team or organization, vouching that he has an indescribable passion for his field of study. Any questions regarding my recommendation, fell free to call me at (939)245-3946 or email me at mizael.rivera@upr.edu

Sincerely,
